

WORKINTON

where people work, better

YOU'LL NEVER WORK ALONE.

YOU
CREATE THEM

Workinton Qatar offers beyond a typical office space.

Opening an office is rather costly.

Furthermore, launching or expanding a company abroad requires tedious and complex procedures, which is why we are here.

Let Workinton take care of all time – taking hassles, paperwork and stress.

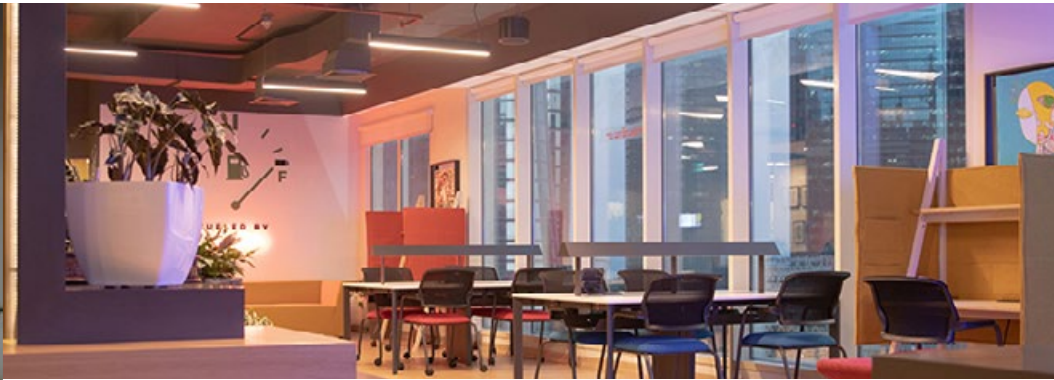

Workinton provides an idea workspace that goes beyond renting a desk or office facilities. While having unlimited access to various office facilities we can be found in locations best suited for you; a collaborative space where even quick breaks can convert into potential partnerships with your neighboring WorkinMembers. Celebrate the evaluation of these partnerships with daily treats throughout the day whilst indulging in various in-house community activities.

While WorkinMembers are busy focusing on business growth and development, Workinton tends to all your office operational needs and best of all? No hidden costs!

Our inspiration “Unite of Power” drives us to bring all components of a startup ecosystem together under one roof where B2B meetings are unlimited. Workinton provides a convenient environment through spacious, creative design and a vibrant community full of “familiar strangers”.

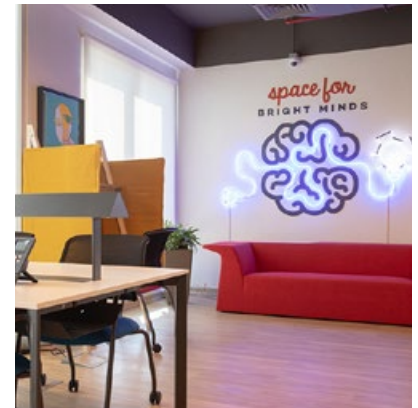

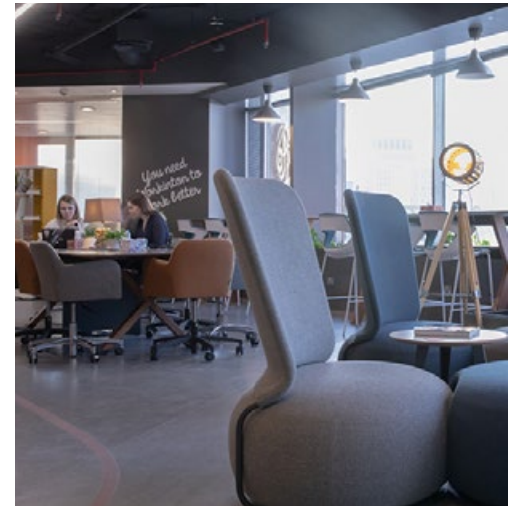

Workinton opens the doors of an ergonomic, efficient and motivated network with working areas of over 25,000 square meters, 18 branch offices across Istanbul, Ankara, Izmir, Bursa, San Diego and Doha. Our family consists of 15,000 individuals and over 2,000 corporate members.

How does everyone work better at Workinton?

At Workinton, experience the suitable working, resting, developing and networking spaces. While your private office is fully serviced with our amenities, take a break and step out to indulge in the coworking and collaborative environment. Workinton has created spaces where you can interact with other WorkinMembers, which could lead to new partnerships and alliances.

SERVICED OFFICE

Regardless of the size of your team, Workinton's Serviced Office plan allows you to choose short/long term use with various flexible options.

At Workinton, you'll never work alone; you may create new collaborations while sharing the same environment with other companies.
